(n) Before the end of April of each year, submit to the Office of the President of the Philippines and Congress, copy furnished the DOE, an annual report containing such matters or cases which have been filed before or referred to it during the preceding year, the actions and proceedings undertaken and its decision or resolution in each case.

MESSAGE FROM THE CHAIR

ERC:TOWARDS ENHANCED REGULATION AND INNOVATION

FY 2012 was a defining year for the Energy Regulatory Commission (ERC). Armed with more than a decade of solid experience as an independent and professional regulator of the Philippine electric power industry, the ERC conquered challenges and advanced by leaps and bounds in 2012.

The ERC positioned itself towards Enhanced Regulation, establishing and strengthening frameworks and systems, and introducing innovations along the way. These frameworks, systems, and innovations provided the foundation for quality and effective regulation. In working towards Enhanced Regulation, the ERC sought to inform the electricity consumers about the fundamental concepts of electric service regulation which include, among others, the unbundled electricity bill's components, the determination of electric power rates, and mechanisms how to effectively participate in public hearings in the ERC.

As part of the innovations for 2012, the ERC produced its very first Television Infomercial (TVI) with the assistance of the Presidential Communications Office (PCOO), through the Philippine Information Agency (PIA). The TVI generates awareness about the ERC's functions and mandates, answers basic electricity questions, and provides information on demand side management.

Likewise, the ERC introduced in 2012 the Online Certificate of Compliance (COC) Filing System. The online filing system facilitates the application, issuance, and renewal of COC and promotes easy access to applicants of COCs.

As the country is getting ready for the competitive retail electricity market, the ERC issued the Transitory Rules for the Implementation of Open Access and Retail Competition Regime to ensure the smooth transition of the electric power industry to a more competitive environment, as well as to promote the interests of all the stakeholders in the industry. To give the retail electricity market participants sufficient amount of time to evaluate, plan and contract for supply of electricity, a six (6) month transition period starting December 26, 2012 until June 25, 2013 was set, after which the contestable customers who are able to contract with suppliers of their own choice, may already implement their supply contracts.

To provide transparency and ensure that the costs and activities are fairly and reasonably allocated and reflected as efficient costs of the respective activities and services of the electric cooperatives, the ERC developed the Accounting and Cost Allocation Manual (ACAM) in line with the Business Separation Guidelines (BSG), as amended, which implements the requirement under the Electric Power Industry Reform

Act (EPIRA) for the structural and functional unbundling of the business activities of electric power industry participants. The ACAM ensures the separation of the audited accounts of each business-related undertaking of the electric cooperatives and provides full and proper documentation of the accounting policies and principles that apply to the electric cooperatives in preparing their Accounting Separation Statements in accordance with the BSG.

In pursuance of the ERC's mandate to promulgate, approve and enforce rules, regulations, resolutions and policies, including the issuances of permits and licenses, the ERC issued seventeen (17) Resolutions, rendered one hundred forty-seven (147) Decisions, issued two hundred eight (208) major Orders, and conducted seven hundred thirty-eight (738) hearings in various provinces and localities all over the country. In terms of the issuance of licenses, the ERC issued two thousand six hundred (2,600) Certificates of Compliance (COCs) to Generation Companies, licensed three (3) Wholesale Aggregators (WA) and issued eleven (11) Retail Electricity Supplier (RES) Licenses in 2012.

In terms of promotion of consumer interest, the ERC resolved eight hundred one (801) consumer complaints, rendered eight thousand one hundred thirty-nine (8,139) frontline services, conducted six hundred sixty-five (665) consumer education/information dissemination activities, and tested and calibrated four million four hundred sixty-one thousand three hundred fifty-four (4,461,354) new and in-service watt-hour meters, including reference standards in 2012.

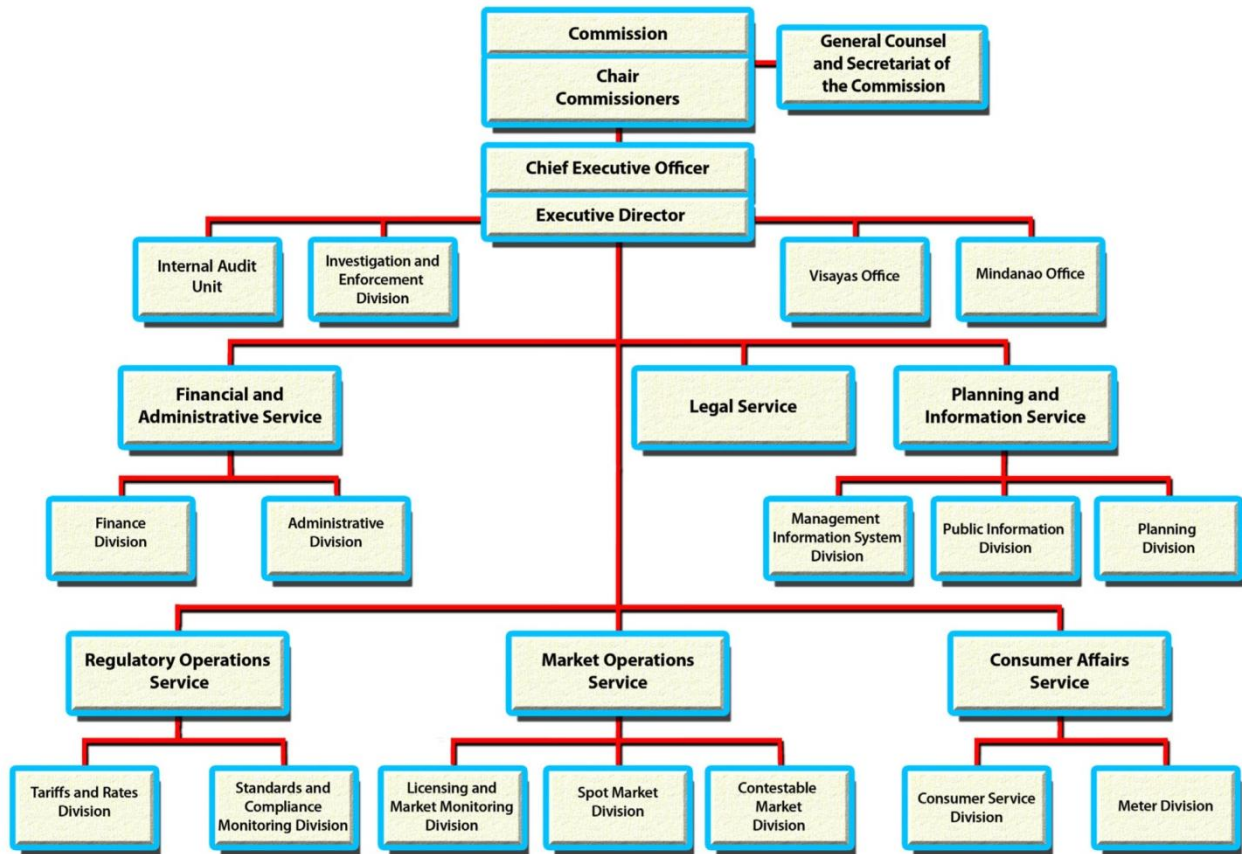

On the renewable energy front, the year 2012 brought us one step closer to realizing our goal of establishing and administering the Feed-In Tariff System. After conducting a series of hearings, consultations, and careful study and deliberation, the ERC set the FITs for run-of-river hydro plants, biomass, wind, and solar.

The success of our initiatives, as reflected in the number of rules, regulations and decisions issued, the innovations and breakthrough projects put in place, and the information, education and communication projects developed and implemented, would not have been possible if not for the dedication and commitment of our people, who are the driving force for all the achievements and actions that we make. As we look forward to the challenges ahead, we aim to strengthen our organization further in order to achieve the highest efficiency and effectiveness in our operations. Our modest accomplishments each year are testaments to our continued growth and eagerness to scale greater heights in the years to come.

2012 RESOLUTIONS

RESOLUTION NO. 1

A RESOLUTION ADOPTING CERTAIN GUIDELINES FOR THE IMPLEMENTATION BY THE DISTRIBUTION UTILITIES OF THE UNIFORM REPORTORIAL REQUIREMENTS STARTING JANUARY 2012

This Resolution supplements Resolution No. 17, series of 2009 adopting the Uniform Reportorial Requirements (URR) to be used by all the distribution utilities (DUs) in lieu of ERC DU-M01, ERC DU-M02 and reportorial requirements imposed in various automatic adjustment mechanisms authorized by the ERC and Resolution No. 24, series of 2011 approving and adopting the revised URR excel model to be implemented starting January 2012. Under the Resolution No. 1, the ERC transmitted to each DU a customized model with its unique password for its use in the monthly computation of various monthly pass-through rates as mandated under Resolution No. 16, series of 2009, with instructions on how to use such customized URR model.

RESOLUTION NO. 2

RESOLUTION AUTHORIZING THE OFFICE OF THE SOLICITOR GENERAL (OSG) TO FILE A PETITION BEFORE THE SUPREME COURT PURSUANT TO RULE 45 OF THE REVISED RULES OF COURT, AS AMENDED, AND APPEAL THE DECISION OF THE COURT OF APPEALS DATED JULY 29, 2011 AND ITS RESOLUTION DATED JANUARY 12, 2012 IN CA G.R. SP NO. 114198

The Resolution embodies the ERC's decision to appeal the Decision of the Court of Appeals dated July 29, 2011 and its Resolution dated January 12, 2012 in CA G.R. SP No. 114198 to the Supreme Court and for this purpose the ERC authorized the Office of the Solicitor General (OSG) to file the appropriate petition and represent it in the said case.

RESOLUTION NO. 3

A RESOLUTION ADOPTING THE AMENDMENTS TO SECTIONS 2.6 AND 2.7 OF THE DISTRIBUTION SERVICES AND OPEN ACCESS RULES (DSOAR)

Pursuant to Resolution No. 3, certain amendments were introduced to Sections 2.6 and 2.7 of the DSOAR to clarify and address the gray areas therein and reconcile them with related rules and regulation of the ERC. These amended sections relate to the applicable general principles and rules on the modifications and new physical connections for residential of non-residential customers of the DUs. A major feature of the amendments is on the right to extension of lines and facilities wherein a prospective customer shall be entitled to extension of lines and facilities at the expense of the DU

even if the connection is considered not viable, in cases of socialized housing projects undertaken by a government agency by itself or through a developer.

RESOLUTION NO. 4

A RESOLUTION SETTING THE INSTALLED GENERATING CAPACITY PER GRID, NATIONAL GRID AND THE MARKET SHARE LIMITATIONS PER GRID AND THE NATIONAL GRID FOR 2012

Section 45(a) of Republic Act No. 9136 (EPIRA) prescribes market share caps to generation companies and their affiliates. To implement this, the ERC issued the Guidelines for the Determination of Installed Generating Capacity in a Grid and the National Installed Generating Capacity and Enforcement of the Limits of Concentration of Ownership, Operation or Control of Installed Generating Capacity, under which the ERC shall adjust the installed generating capacity per grid and national grid and market share limitations on or before the 15th day of March of each year and/or as often as may be necessary. Resolution No. 4 sets the installed generating capacity per grid, and national grid and the market share limitations per grid and the national grid for 2012, as follows:

Grid	Installed Generating Capacity (kW)	% Market Share Limitations as per RA 9136	Installed Generating Capacity Limit (kW)
Luzon	11,387,538.53	30%	3,416,275.06
Visayas	2,063,199.00	30%	618,959.70
Mindanao	1,768,848.00	30%	530,654.40
National	15,219,630.53	25%	3,804,907.63

RESOLUTION NO. 6

A RESOLUTION ADOPTING THE RULES ON ACCREDITATION OF EXTERNAL AUDITORS AND AUDITING FIRMS FOR THE PURPOSE OF CONDUCTING VERIFICATION ON THE DOCUMENTS OF DISTRIBUTION UTILITIES RELATIVE TO THE COMPLIANCE CASES FILED BEFORE THE COMMISSION

To establish a systematized confirmation process of the pass-through rates being imposed by the DUs, the ERC issued Resolution No. 16, series of 2009. Under such process established under said Resolution, the ERC indicated that it may refer the audit of the DUs' submissions to accredited independent auditors. To implement this, the ERC issued Resolution No. 6 to establish the rules on how these third party external auditors will be accredited and what requirements they will have to comply with as a prerequisite for said accreditation.

RESOLUTION NO. 7

A RESOLUTION ADOPTING THE ACCOUNTING AND COST ALLOCATION MANUAL (ACAM) FOR ELECTRIC COOPERATIVES

In line with the Business Separation Guidelines (BSG) as amended which implement the requirement under EPIRA for the structural and functional unbundling of the business activities of electric power industry participants, the ERC developed the ACAM for electric cooperatives (ECs) and upon their joint petition, it adopted the same for use by the ECs. The ACAM ensures the separation of the audited accounts of each business related undertaking of the ECs, the fair and reasonable allocation of these costs, and the proper documentation of the accounting policies and principles that apply to the ECs when they prepare their Accounting Separation Statements in accordance with the BSG.

RESOLUTION NO. 8

A RESOLUTION DIRECTING ALL DISTRIBUTION UTILITIES TO REMIT THEIR RESPECTIVE PROPORTIONATE SHARES TO THE DISTRIBUTION MANAGEMENT COMMITTEE'S 2012 BUDGET

After approving the PhP19,786,558.67 2012 Budget of the Distribution Management Committee (DMC), which was created pursuant to the Philippine Distribution Code, the ERC issued Resolution No. 8 to direct all the DUs to pay and remit to the DMC their respective shares computed based on their annual energy sales.

RESOLUTION NO. 9

A RESOLUTION ADOPTING THE GRID MANAGEMENT COMMITTEE (GMC) RULES AND PROCEDURES TO GOVERN THE MONITORING OF COMPLIANCE OF GRID USERS TO THE PHILIPPINE GRID CODE

GMC's Rules and Procedures reiterate the standards and measurements in the Philippine Grid Code (PGC) and specify how the concerned Grid users shall comply with them. It prescribes also the templates for the Compliance Monitoring Report to be submitted by the Reporting entities on or before May 31 of every year.

RESOLUTION NO. 10

RESOLUTION APPROVING THE FEED-IN TARIFF RATES

Following the conduct of several public hearings, and in consultation with the National Renewable Energy Board (NREB), the ERC initially set the feed-in tariff rates for wind, biomass, solar, and hydro, as follows:

	ERC-Approved FIT Rates (PhP/kWh)	ERC-Approved Degression Rates
1. Wind	8.53	0.5% after year 2 from effectivity of FIT
2. Biomass	6.63	0.5% after year 2 from effectivity of FIT
3. Solar	9.68	6% after year 1 from effectivity of FIT
4. Hydro	5.90	0.5% after year 2 from effectivity of FIT

RESOLUTION NO. 11

A RESOLUTION DIRECTING THE 140 DISTRIBUTION UTILITIES (DUS) OF THE PHILIPPINES TO PLAY THE 3-MINUTE ERC CORPORATE IDENTITY (ID) AUDIO-VISUAL PRESENTATION (AVP) AND THE 1-MINUTE AND THE 30-SECOND TELEVISION INFOMERCIALS (TVIS) IN THEIR BUSINESS LOUNGES (PAYMENT CENTERS, CUSTOMERS WELFARE DESKS & SIMILAR PUBLIC AREAS) AND/OR AIR THE SAME AUDIO-VISUAL MATERIALS IN THEIR AFFILIATED CABLE TELEVISION NETWORKS IN THE NAME OF CONSUMER EDUCATION

With the assistance of the Presidential Communications Office (PCOO) through the Philippine Information Agency (PIA), the ERC produced TVIs to generate awareness about the ERC's mandates and demand side management. To ensure the widest dissemination of these TVIs, the ERC circulated among the DUs its advisory for them to air the TVIs in their payments centers and affiliate cable companies.

RESOLUTION NO. 12

A RESOLUTION AUTHORIZING THE CHAIRPERSON, ZENAIDA G. CRUZ-DUCUT, TO ENTER INTO A MEMORANDUM OF AGREEMENT (MOA) WITH THE DEPARTMENT OF PUBLIC WORK AND HIGHWAYS (DPWH), FOR AND IN BEHALF OF THE ENERGY REGULATORY COMMISSION (ERC), FOR THE CONSTRUCTION OF THE ERC OFFICE BUILDING ON THE PARCEL OF LAND SUBJECT OF THE "AGREEMENT OF USUFRUCT OVER A PARCEL OF LAND" EXECUTED WITH THE POWER SECTOR ASSETS AND LIABILITIES MANAGEMENT CORPORATION (PSALM)

Following the approval of the budget for the construction of the ERC's Office Building and in recognition that the ERC does not have the expertise to undertake the project management for such construction, the ERC resolved to contract out the task to the DPWH, and for this purpose, it authorized Chairperson Zenaida G. Cruz-Ducut to represent the ERC in the execution of the appropriate documents with the DPWH.

RESOLUTION NO. 12-A

A RESOLUTION CLARIFYING RESOLUTION NO. 12, SERIES OF 2012

The Resolution only clarifies that the entity referred to in Resolution No. 12 to undertake the project management for the construction of the ERC Office Building is the DPWH-National Capital Region (NCR), which has jurisdiction over the proposed location of the ERC Office Building.

RESOLUTION NO. 13

A RESOLUTION ADOPTING THE JUDICIAL AFFIDAVIT RULE (A.M. NO. 12-8-8-SC) PROMULGATED BY THE HONORABLE SUPREME COURT ON SEPTEMBER 4, 2012 WHICH SHALL FORM PART OF THE COMMISSION'S RULES OF PRACTICE AND PROCEDURE, PARTICULARLY SECTION 6, RULE 18 THEREOF

To supplement Section 6, Rule 18 of the ERC's of Practice and Procedure, the ERC resolved to adopt the Supreme Court's Judicial Affidavit Rule.

RESOLUTION NO. 14

A RESOLUTION IMPLEMENTING THE ONLINE CERTIFICATE OF COMPLIANCE (COC) FILING SYSTEM

The ERC designed and developed an online COC filing system to provide easy access to applicants of COC and help facilitate COC renewals.

RESOLUTION NO. 15

RESOLUTION ADOPTING THE POSITION OF THE COMMISSION ON THE ISSUES PAPER PUBLISHED ON 02 APRIL 2012 AND THE CORRESPONDING AMENDMENTS TO THE FEED-IN TARIFF RULES

Regarding the 3 issues listed in the ERC's Issues Paper published on 02 April 2012, the ERC, after conducting public consultations thereon, resolved the following:

- a) On the proposed competitive bidding process to set the FITs, the ERC posited that, while competitive bidding may have been resorted to in some jurisdictions, the mechanism adopted in the FIT Rules may still be carried out, as in fact this has been what was done in some other jurisdictions as well, at least for the initial FIT implementation.
- b) On the FIT-All Administrator, the ERC accepted the proposal to substitute the National Grid Corporation of the Philippines with the National Transmission Corporation as FIT-All Administrator.
- c) On the FIT-All calculation, the ERC maintained that this shall be addressed in the FIT-All Payment and Collection Guidelines.

RESOLUTION NO. 16

A RESOLUTION ADOPTING THE TRANSITORY RULES FOR THE IMPLEMENTATION OF OPEN ACCESS AND RETAIL COMPETITION

To ensure the smooth transition from the existing power industry structure to a competitive environment, the ERC issued these transitory rules to govern the transition to and initial implementation of Open Access and Retail Competition (OARC). In the Transitory Rules, the ERC declared a transitory period from December 26, 2012 until June 25, 2013 during which the contestable customers shall continue to be served by their incumbent suppliers. From June 26, 2012 until December 25, 2013, the contestable customers who are not able to contract with a retail electricity supplier (RES) of their own choice, after exhausting all means, shall also be served by their incumbent suppliers. From December 26, 2013 onwards, all the contestable customers shall already be served by their own RES, otherwise they shall fall under the supplier of last resort (SOLR) arrangement and they shall be served by the designated SOLR at SOLR rates.

RESOLUTION NO. 17

A RESOLUTION ADOPTING THE AMENDMENTS TO THE RULES FOR PREPAID RETAIL ELECTRIC SERVICE USING A PREPAID METERING SYSTEM

The ERC adopted certain amendments to the Rules for Prepaid Retail Electric Service (PRES) using a Prepaid Metering System, which was approved on July 13, 2009. In these amendments, the ERC expanded the coverage of the PRES to include all customer classifications and approved the use of all available types of technologies in the implementation of the PRES. The ERC also adopted the use of the postpaid retail rate current at the particular month the credited load was consumed as the applicable prepaid rate.

ENFORCEMENT OF RULES

BUSINESS SEPARATION AND UNBUNDLING PLAN (BSUP) & ACCOUNTING AND COST ALLOCATION MANUAL (ACAM)

On March 26, 2012, the ERC approved the application for BSUP and ACAM of Subic Enerzone Corporation (SEZ) after finding SEZ to be in compliance with the requirements under the Business Separation Guidelines (BSG), as Amended. In addition, SEZ submitted an undertaking together with a plan to separate the business segments to ensure full compliance to the BSG, as well as a plan to comply with the Code of Conduct for Competitive Retail Market Participants.

CAPITAL EXPENDITURE PROJECTS

It is the ERC's mandate to ensure the quality, reliability, security and affordability of the supply of electric power, as provided for in Republic Act No. 9136 or the Electric power Industry Reform Act (EPIRA). Consistent with its mandate, on 03 December 2012, the ERC approved the application filed by the National Grid Corporation of the Philippines (NGCP) for its Sta. Barbara 230 kV project, with a total approved cost of PhP691,794,000.00.

Moreover, in order to ensure the supply of a quality and reliable electricity within their franchise areas, the ERC approved twelve (12) applications filed by various Distribution Utilities (DUs), to wit:

CERTIFICATE OF COMPLIANCE (COC)

The ERC approved 1,146 new COCs (approximately 1,103 MW installed capacity) and 1,454 COC renewal applications (approximately 1,643 MW installed capacity) in 2012 to the following Generation Companies (GenCos) and Self-Generation Facilities (SGFs). This brings the total number of COCs issued by the ERC to 26,844 as of December 31, 2012.

Below is the list of new COCs issued from January to December 2012:

CERTIFICATE OF PUBLIC CONVENIENCE AND NECESSITY

The ERC, on 08 November 2011, approved the application filed by Cagayan Electric Power and Light Company, Inc. (CEPALCO) for the renewal of its CPCN to operate in the City of Cagayan de Oro and its suburbs, effective June 17, 2011 to August 2, 2044, to coincide with its approved Congressional franchise. CEPALCO established that it has the expertise and resources to adequately and reliably serve the present and future electrical power needs of its customers.

CERTIFICATE OF REGISTRATION

The ERC issued three (3) Certificates of Registration filed by the following Wholesale Aggregators (WA) in 2012:

Wholesale Aggregator (WA)	Date of Approval
1. Angeles Power, Inc.	April 2, 2012
2. First Gen Energy Solutions, Inc.	May 22, 2012
3. Manta Energy, Inc. (Formerly named iN2Power, Inc.)	June 25, 2012

CONNECTION ASSETS

On 20 February 2012, the ERC approved the application filed by Kepco-SPC Power Corporation (KSPC) for the construction of connection assets for its 2x100 Circulating Fluidized Bed Combustor (CFBC) Boiler Coal-Fired Power Plant, particularly the 138 kV DC-ST transmission line from KEPCO Power Plant to New Naga (Cebu) Substation.

CONSUMER COMPLAINTS

Section 41 of Republic Act No. 9136 or the Electric Power Industry Reform Act (EPIRA) mandated the ERC to handle consumer complaints and ensure the adequate promotion of consumer interests. In line with this, the ERC, on 16 November 2011, resolved the complaint filed by Corinthian Realty Corp. and Renato Dragon, versus Manila Electric Company (MERALCO), under ERC Case No. 2009-091 CC. The ERC ruled that there was no tampering of the meters which could have resulted to overbilling or illegal disconnection committed by MERALCO. The ERC found that the outstanding electric bills issued to Corinthian Realty Corp. from September 2006 to June 2010 were correct based on numerous tests and verification conducted by the ERC. Accordingly, Corinthian Realty Corp was directed to pay MERALCO the amount of PhP2,091,119.70 which represents its bills in arrears.

DISPUTE RESOLUTION

The EPIRA, under Section 43(u), gave the ERC the *original and exclusive jurisdiction over all cases involving disputes between and among participants or players in the energy sector*. As such, the ERC, in 2012, resolved three (3) disputes filed before it, namely:

1. Angeles Electric Corporation (AEC) and Tarlac Electric, Inc. (TEI) versus Power Sector Assets and Liabilities Management Corporation (PSALM) and National Grid Corporation of the Philippines (NGCP);
2. Stronghold Steel Corporation (SSC) versus National Grid Corporation of the Philippines (NGCP); and
3. Melters Steel Corporation (MSC) versus National Grid Corporation of the Philippines (NGCP).

AEC and TEI filed their petition with ERC to nullify the Value Added Tax (VAT) charges on Default Wholesale Supply Arrangement (DWSA). The ERC, in its Decision dated 03 December 2012 made permanent the Status Quo Order issued on 19 April 2011. AEC and TEI were able to prove that their PEZA or BOI-registered customers were granted tax incentives under Section 4, 108-5 and 108-6, Revenue Regulation No. 16-2005, therefore qualifying them under Zero Rate Sale of Services and effectively Zero Rate Sale of Services, respectively. Accordingly, PSALM was directed to refrain from collecting the 12% VAT on the electricity sales to PEZA and BOI-registered customers of AEC and TEI.

On the other hand, SCC filed a petition for dispute resolution against NGCP relative to its billing determinant arrangement with the National Transmission Corporation (TRANSCO). On 26 November 2012, the ERC made permanent the Cease and Desist Order issued on 10 September 2012, upon confirming that the transmission charges for SSC should be calculated on the basis of the Coincident Peak Demand (CPD) of the Luzon System Peak Demand. As a result, NGCP was directed to (a) use SSC's actual demand coincident with the Luzon System Peak Demand as its billing determinant in the calculation of its transmission charges, subject to the approved minimum billing determinant of 17 MW; (b) refund to SSC the total amount of over-recovery in the transmission charges from the time it shifted from CPD to Non-Coincident Peak Demand (NCPD); and (c) submit its compliance within 10 days from receipt of Decision.

Similar to the case above, MSC filed its petition for the adoption of the same billing methodology approved for SKK Steel Corporation (SKK) and SSC by TRANSCO. Thus, on the same date as the SSC's petition was resolved, the ERC approved MSC's application for the adoption of the same billing methodology approved for SSC in ERC Case No. 2011-060 MC.

FEED-IN TARIFF (FIT) RATE

Section 7 of the Republic Act No. 9513 or the Renewable Energy Act of 2008 mandated the ERC to formulate a feed-in tariff system to encourage development of renewable energy in the country. The Feed-in Tariff Rules of the ERC further provides that the National Renewable Energy Board (NREB) file its recommended FITs per technology to the ERC for its approval.

On 27 July 2012, the ERC approved the NREB's application for feed-in tariff for biomass, run-of-river (ROR) hydropower, solar and wind energy. The ERC-approved FIT rates were as follows:

TECHNOLOGY	APPROVED FIT	DEGRESSION RATE
Wind	PhP8.53/kWh	0.5% after year 2 from effectivity of FIT
Biomass	PhP6.63/kWh	0.5% after year 2 from effectivity of FIT
Solar	PhP9.68/kWh	6% after year 1 from effectivity of FIT
Hydro	PhP5.90/kWh	0.5% after year 2 from effectivity of FIT

Meanwhile, the ERC deferred decision on the proposed FIT for ocean until sufficient data shall become available upon which it may base its determination.

FUEL AND LUBRICANT COST RECOVERY

The ERC approved Cotabato Light and Power Company, Inc.'s application for the recovery of its actual fuel and lubricant costs incurred for the period March 15, 2010 up to January 2011. Accordingly, the ERC authorized CLPC to recover the fuel and lubricant costs (on top of the existing fuel recovery charge of PhP0.0298/kWh) amounting to PhP17,275,184.43 which is equivalent to PhP0.1554/kWh, effective on the next billing cycle from receipt of the Decision until its full recovery.

GENERATION RATE ADJUSTMENT MECHANISM (GRAM)

On 26 March 2012, the ERC approved the application of the National Power Corporation (NPC) and Power Sector Assets and Liabilities Management Corporation (PSALM) for the recovery of its fuel and IPP costs under the 10th to 17th GRAM (under ERC Case Nos. 2008-042 RC, 2008-053 RC, 2008-063 RC, 2009-032 RC, 2009-056 RC, 2010-003 RC, 2010-068 RC, and 2010-074 RC) for test period January 2007 to April 2011. The following are the approved Deferred Accounting Adjustment (DAA), recovery rate and recovery period for Luzon, Visayas and Mindanao, effective March 26, 2012 to April 25, 2012 billing period until the end of the corresponding recovery periods or until such time that the full amount shall have been recovered, whichever comes earlier:

	DAA (PHP)	RECOVERY (PHP/KWH)	RECOVERY PERIOD
LUZON	26,281,952,768.34	0.3267	120 months
VISAYAS	7,706,055,072.95	0.4847	126 months
MINDANAO	1,908,403,425.72	0.0536	54 months

On 24 September 2012, the ERC also approved the application of National Power Corporation - Small Power Utilities Group (NPC-SPUG) for the recovery of its fuel and IPP costs under the 13th GRAM for test period January 2005 to December 2005. The following are the approved Deferred Accounting Adjustment (DAA), recovery rate and recovery period for Luzon, Visayas and Mindanao, effective the next billing period until the end of the corresponding recovery periods or until such time that the full amount shall have been recovered, whichever comes earlier:

	DAA (PHP)	RECOVERY (PHP/KWH)	RECOVERY PERIOD
LUZON	1,467,086,778.00	0.5585	64 months
VISAYAS	152,045,847.42	0.8043	57 months
MINDANAO	344,188,432.00	1.0773	12 months

Meanwhile, the ERC, on 03 December 2012, approved the petitions filed by Cabanatuan Electric Corporation (CELCOR) under ERC Case Nos. 2010-022 RC and 2010-040 RC for lower generation charges for billing months of March 2010 and April 2010 and for the recovery of the differential generation charges within a 6 month period. CELCOR was authorized to recover the amount of PhP13,161,725.58 equivalent to PhP0.0651/kWh, and was directed to refund the amount of PhP1,485,795.10 equivalent to PhP0.0073/kWh starting the next billing period from receipt of the Decision until such time that the full amount shall have been recovered/refunded. Further, CELCOR was directed to revisit and renegotiate its Power Supply Contract (PSC) with First Cabanatuan Ventures Corporation (FCVC) relative to its Minimum Energy Off-Take (MEOT).

INCREMENTAL CURRENCY EXCHANGE RATE ADJUSTMENT (ICERA)

The ERC approved the petitions filed by National Power Corporation (NPC) and Power Sector Assets and Liabilities Management Corporation (PSALM) for the recovery of their 15th and 16th ICERA under ERC Case Nos. 2010-067 RC and 2010-073 RC on 26 March 2012. NPC and PSALM were authorized to recover the Deferred Accounting Adjustments (DAAs) on ICERA, covering test period July 2009 to April 2010 and the remaining balance of the 14th ICERA, effective March 26, 2012 to April 25, 2012 billing period until it is fully recovered/ refunded, to wit:

	DAA (PHP)	RECOVERY / (REFUND) (PHP/KWH)	RECOVERY/ (REFUND) PERIOD
LUZON	8,193,293,149.95	0.3637	96 months
VISAYAS	918,421,045.84	0.1213	60 months
MINDANAO	(224,300,499.43)	(0.0094)	36 months

The ERC also approved the application of National Power Corporation - Small Power Utilities Group (NPC-SPUG) for the recovery of its 3rd ICERA on 24 September 2012, in the amount of PhP341,418,352.54. Accordingly, NPC-SPUG was authorized to recover from SPUG consumers the amount of PhP0.3907/kWh within a period of 2 years or until such time that it is fully recovered starting the next billing system from receipt of the Decision.

LEASE OF PROPERTY

The ERC approved, on 28 November 2011 and 19 December 2011 the applications filed by Angeles Electric Corporation (AEC) and Cabanatuan Electric Corporation (CELCOR), respectively, for authority to lease Regulatory Asset Base (RAB) properties. The ERC's approval of AEC's and CELCOR's pole space rentals was subject to the R.A. 9136 and its IRR's provision that a portion of a Distribution Utilities' net annual income from related business undertaking shall be used to reduce its Distribution Wheeling Charges provided that such shall not exceed 50% of the net income derived from such undertaking. As such, it will be beneficial to the consumers of AEC and CELCOR in terms of reduced rates.

The 2010 pole rental income of AEC reached PhP3,427,673.02 relative to the Joint Pole Agreements with Angeles City Telephone System, Angeles City Cable Television Network, Inc., Dau Telephone Company, Digital Telecommunications Philippines, Inc., Innove Communications, Inc., Philippine Long Distance Telephone Company, and Angeles University Foundation.

On the other hand, the summary of the pole rental income submitted by CELCOR for a 10 year contract period with Philippine Long Distance Telephone Company, Digital Telecommunications Philippines, Inc., MultiNetwork Cable Television, Inc., Bayan Telecommunications, Inc., Innove Communications, Inc., and Smart Communications, Inc. shows a total income of PhP54,032,581.08.

MARKET TRANSACTION FEES

The ERC, on 05 December 2011, approved the Philippine Electricity Market Corporation's (PEMC) additional Market Transaction Fees in the amount of PhP26,380,586.00 to cover the additional budget necessary for operating the WESM in the Visayas, as well as the hiring of additional personnel as a result of its

reorganization. The approved amount includes the Visayas funding requirement amounting to PhP23,706,457.00, additional adjustments amounting to PhP474,129.00 and provision for external auditor amounting to PhP2,200,000.00. Accordingly, PEMC was authorized to collect the said fees from WESM participants in the Visayas Grid retroactive from the billing month of January 2011, and was directed to submit a mechanism for the collection of the fees within 10 days from receipt of the Decision. Moreover, the ERC granted PEMC's request for authority to allocate the amount of PhP26,518,272.00 from the unutilized market transaction fees for calendar year 2010 for its proposed Market Dispatch Optimization Model (MDOM) Software Modification Project.

OVER / UNDER RECOVERIES IN THE IMPLEMENTATION OF THE AUTOMATIC ADJUSTMENTS

Pursuant to ERC Resolution No. 16, Series of 2009 and Resolution No. 21, Series of 2010, the ERC approved twelve (12) applications for verification and confirmation of the over/under recoveries incurred by the Distribution Utilities in their implementation of the various automatic cost adjustments and true-up mechanisms authorized by the ERC.

PERFORMANCE-BASED REGULATION

The ERC, on 24 September 2012, approved the application filed by the National Grid Corporation of the Philippines (NGCP) for the Maximum Allowable Revenue (MAR) for the Calendar Year 2012 and Performance Incentive Scheme (PIS) Compliance in accordance with the Alternative Form of Rate Setting Methodology under the Rules for Setting Transmission Wheeling Rates (RTWR). The approved MAR amounted to PhP42,903.05 million while the approved PIS amounted to PhP503.12 million. Further, NGCP was directed to submit in subsequent application for approval of CY 2013 MAR an ancillary services availability register for each ancillary service for each grid.

On 29 October 2012, the ERC approved the application of the following Distribution Utilities (DUs) for the Recalculated MAP for Regulatory Year 2013 and its translation into distribution rates of different customer classes for the 3rd Regulatory Year of the ERC-ARR:

ERC Case No.	Distribution Utility	MAP 2013	S FACTOR	OVER-RECOVERY
2012-048 RC	La Union Electric Company (LUELCO)	PhP1.5438/kWh	PhP0.0039/kWh	PhP0.0648/kWh
2012-049 RC	Cabanatuan Electric Corporation (CELCOR)	PhP1.6488/kWh	PhP0.0263/kWh	PhP0.0912/kWh
2012-050 RC	Tarlac Electric, Incorporated (TEI)	PhP1.7305/kWh	PhP0.0113/kWh	PhP0.0434/kWh
<i>The ERC directed LUELCO, CELCOR and TEI to implement the detailed table (as provided in the Decision) of the approved distribution, supply and metering charges effective its next billing period.</i>				

Similarly, on 19 December 2011 and 01 October 2012, the ERC decided on the application filed by Cagayan Electric Power and Light Company, Incorporated (CEPALCO) for its Maximum Average Price (MAP) and its translation into distribution, supply and metering charges for the different customer classes for 2012 and 2013, respectively. The ERC made permanent the provisional approval granted to CEPALCO

on August 22, 2011 on its application for MAP₂₀₁₂ and its translation into rates. The overall reduction in CEPALCO's existing rate of PhP1.5705/kWh vis-a-vis its MAP₂₀₁₂ of PhP1.3467/kWh is PhP0.2238/kWh. Meanwhile, the ERC approved CEPALCO's MAP₂₀₁₃ and its translation into distribution charges, with a total average rate of PhP1.2849/kWh. The ERC directed CEPALCO to implement the detailed table of approved rates effective its next billing period from receipt of the Decision.

Likewise, on 23 April 2012, the ERC approved the application of Bohol Light Company, Incorporated (BLCI) and Clark Electric Distribution Corporation (CEDC) for the translation into distribution rates for the First Regulatory Year of the ERC-Approved Annual Revenue Requirement (ARR) for the Regulatory Period 2012-2015 and October 1, 2011 - September 30, 2015, respectively. The ERC directed BLCI and CEDC to implement the detailed table of the approved charges effective its next billing period from receipt of the Decision, with a total average rate of PhP1.0181/kWh for BLCI and PhP0.8527/kWh for CEDC. BLCI was also directed to implement a revised lifeline discount of 100% for 20kWh and below, 50% for 21-35kWh, 40% for 36-55kWh, 30% for 56-66kWh, and 20% for 66-75kWh; and a subsidy rate to non-lifeline customers at PhP0.0661/kWh.

Eleven (11) other cases decided by the ERC in 2012 on the approval of the MAP and its translation into distribution rates for various regulatory years/ periods are detailed in a table below:

The ERC directed the Distribution Utilities listed above to implement the detailed table (included in the Decision) of the approved distribution, supply and metering charges effective the next billing period from receipt of the ERC Decision on their respective applications.

RATE ADJUSTMENT

On 19 December 2011, the ERC approved Romblon Electric Cooperative, Inc.'s (ROMELCO) petition for rate adjustment, granting ROMELCO a Total Revenue Requirement (TRR) amounting to PhP20,406,667.00 and an Overall Average Tariff Adjustment (OATA) amounting to PhP0.4663/kWh on its total distribution, supply and metering charges. Rate schedule per customer class as detailed in the Decision shall be effective on the next billing cycle from receipt of the Decision. Moreover, the ERC directed ROMELCO to implement a 25% lifeline discount to customers consuming 15 kWh and below, and 20% lifeline discount to customers consuming 16-20 kWh. Further, the Reinvestment Fund of PhP0.4431/kWh shall be part of the contribution from the member-consumers.

RETAIL ELECTRICITY SUPPLIERS (RES) LICENSE

The ERC issued a total of eleven (11) Retail Electricity Suppliers (RES) License in 2012 to the following entities:

RES	Date of Approval
1. Kratos RES, Inc.	January 9, 2012
2. Team (Philippines) Energy Corp.	January 24, 2012

RETIREMENT AND WITHDRAWAL FROM SERVICE OF EQUIPMENT, MACHINERIES AND OTHER PROPERTIES

The ERC granted Manila Electric Company's (MERALCO) petition to retire the Cavite, Lucena II, Pagbilao, Forbes Park and Tondo Substations and the withdrawal from the service of the equipment and machineries installed therein. The total cost of the retired assets amounting to PhP24,798,169.00 shall be subject to adjustment and optimization during reset process for the 4th Regulatory Period in accordance with the Rules for Setting Distribution Wheeling Rates (RDWR) and other pertinent issuances of the ERC.

RULES FOR SETTING ELECTRIC COOPERATIVES' WHEELING RATES (RSEC-WR)

The ERC, in 2012, decided on two (2) applications for approval of an adjustment in rates under the RSEC-WR. On 17 October 2011, The ERC approved Cotabato Electric Cooperative, Inc.'s (COTELCO) proposed rate adjustment with a detailed Final Transition Rates Schedule for the following periods, effective its January 2011 to December 2013 billing period: (1) Start of transition from January 2011 to December 2011; (2) End of Year 1 from January 2012 to December 2012; and (3) End of transition from January 2013 to December 2013.

On 12 March 2012, the ERC approved Pampanga III Electric Cooperative, Inc.'s (PELCO III) proposed rate adjustment and provided a detailed Final Transition Rates Schedule for the following periods, effective its January 2012 to December 2014 billing period: (1) Start of transition from January 2012 to December 2012; (2) End of Year 1 from January 2013 to December 2013; and (3) End of transition from January 2014 onwards.

SALE OF SUBTRANSMISSION LINES/ ASSETS

The ERC approved three (3) applications of the National Transmission Corporation (TRANSCO) for the sale of the following subtransmission assets:

SECURING LOANS

Pangasinan I Electric Cooperative, Inc.'s (PANELCO I) application to secure a loan amounting to PhP13 million from the Bank of the Philippine Islands was approved by the ERC on 19 December 2011. This is to finance the implementation of its power

distribution expansion and rehabilitation projects, namely: (1) installation of a 10MVA substation in Dasol, Pangasinan; (2) rehabilitation of its Bolinao and Tara substations; and (3) construction and acquisition of transmission lines in its franchise area. The loan, as certified by BPI, shall be for a maximum term of 7 years with 1 year grace period on principal payments. PANELCO I shall repay the loan in equal quarterly installments of PhP2,825,000.00 commencing at the end of the 4th quarter from the initial drawdown.

SUPPLY AGREEMENTS

The ERC resolved, on 26 September 2011 and 03 October 2011, the application for approval of the Electric Power Purchase Agreement (EPPA) of Cebu Energy Development Corporation (CEDC) with Mactan Electric Company, Incorporated (MECO) and Bohol I Electric Cooperative, Incorporated (BOHECO I), respectively. Upon Commercial Operation Date (at 80% load factor), the rate shall be PhP5.9176/kWh with the following breakdown:

	MECO (in PhP/kWh)	BOHECO 1 (in PhP/kWh)
Capital Recovery Fee	2.7853	2.2282
Peso O&M Fee	0.3871	0.3434
Dollar O&M Fee	0.4810	0.3688
Fuel Cost	2.2642	2.2642
	For additional electric power in excess of 1,545,264,000/kWh per year, on the other hand, the approved O&M variable fee shall be PhP0.1685/kWh and fuel cost shall be computed based on a consumption rate of 0.70kg/kWh or actual, whichever is lower.	

On 22 August 2011, the ERC resolved the application for approval of the Contract for the Sale of Electricity (CSE) entered into by Masinloc Power Partners Company, Limited (MPPCL) with Dagupan Electric Corporation (DECORP) under ERC Case No. 2010-005 RC and the Supplemental Agreement to the CSEE under ERC Case No. 2010-092 RC. The ERC approved an average time of use generation rate of PhP2.5494/kWh, with the following components: PhP0.6619/kWh Capacity Recovery Charge; PhP0.4057/kWh Fixed O&M Charge; PhP0.0120/kWh Variable O&M Charge; and PhP1.4698/kWh Fuel Cost. The ERC allowed the indexation of Fuel to Fuel Cost Index and exchange rate provided that the actual cost is reflected, and also the Allowable Contract Reimbursable (ACR) and TRANSCO Service Charge (TSC) and Generation Service Charge (GSC). On the other hand, the ERC disallowed the use of coefficient factors, the step increases in the SoLO TOU, as well as the condition in the FXRo, particularly, when FXR_n/FXR_o , 1 shall be deemed to be 1.0000, to reflect the actual value of FXR_o . Also, ERC clarified that the re-declaration of Bilateral Contract Quantities (BCQ) should have been until January 17, 2011 only, in congruence to DOE's directive to PEMC. Finally, the ERC directed MPPCL to refrain from entering into any contract for the 51.97 MW allocated for its in-house consumption as the same was not considered in the computation of its base rate.

On 26 December 2011, the ERC resolved the application for approval of CSEE filed by Batangas II Electric Cooperative, Inc. (BATELEC II) and Trans-Asia Oil and Energy Development Corporation (TA-OIL), and authorized TA-OIL to charge BATELEC II the approved National Power Corporation (NPC) Time-of-Use (TOU) rates for Luzon from the time it started supplying electricity to BATELEC.

On 02 July 2012, the ERC resolved the application for approval of Electricity Supply Agreement (ESA) filed by Catanduanes Power Generation, Inc. (CPGI) and First Catanduanes Electric Cooperative, Inc. (FICELCO). The applicable base tariff that was approved consists of a non-fuel charge component, fuel oil charge and lube oil charge. The PhP2.0018/kWh non-fuel charge includes a capacity fee of PhP0.5471/kWh, Fixed Operations and Maintenance (O&M) of PhP0.8647/kWh subject to Philippine CPI adjustment at base index date of July 2003, and Variable O&M of PhP0.5900/kWh subject to adjustments in US CPI at base index of July 2003 and Philippine Peso-US Dollar foreign exchange adjustment at base date of July 2003. On the other hand, both the fuel oil and lube oil charges are pass through cost but limited to a fuel efficiency cap, to wit: (1) for load of up to 50%, a heat rate of 0.2680 li/kWh or actual, whichever is lower; and (2) for load of above 50%, a heat rate of 0.2604 or actual, whichever is lower. The above cap may be adjusted depending on the result of a capacity/fuel consumption test run to be conducted by an independent third party or the National Power Corporation- Small Power Utilities Group (NPC-SPUG).

On 01 October 2012, the ERC resolved the application for approval of the ESA between Therma Marine, Inc. (TMI) and Zamboanga del Norte Electric Cooperative, Inc. (ZANECO). The ERC approved the following capacity fees (in PhP/kW/month) which shall not be subject to indexation but to true-up mechanism at the beginning of the following year: 379 for 2011; 360 for 2012; 342 for 2013; 323 for 2014; and 305 for 2015. Moreover, a Fixed O&M Fee and Energy Fee were approved in the amount of PhP239/kW/month and PhP0.1486/kWh, respectively, both subject to their respective indexation factor. On the other hand, the Fuel and Lube Oil Rate is a pass thru cost based on fuel consumption rates of 0.2358 liter/kWh or actual, whichever is lower for Heavy Fuel Oil and 0.0024 liter/kWh or actual, whichever is lower, for Lube Oil.

The ERC approved Palawan Power Generation, Inc.'s (PPGI) Amended Electricity Supply Agreement (ESA) with Palawan Electric Cooperative, Inc. (PALECO) on 01 October 2012 under ERC Case Nos. 2011-099 RC and 2011-102 RC.

The amended ESA covers the change in the indexation of foreign Operations and Maintenance (O&M) Fee of Engines 1 and 2 imported from France from US Dollar to Euro and of Engines 3 and 4 imported from Japan from US Dollar to Japan Commodity Index and Philippine Peso-Yen Exchange Rate. The amendments also cover the removal of the associated Lube Oil Cost from the O&M Fee, which shall be charged as a separate item subject to an efficiency cap of 0.00291li/kWh or actual, whichever is lower for Engines 1 and 2, and 0.003165li/kWh or actual, whichever is lower for Engines 3 and 4. The amendments of the ESA have no direct impact on the generation rates

imposed on PALECO customers considering Palawan is within the area served by the NPC-SPUC and thus, they shall continue to be charged the approved Socialized Average Generation Rate (SAGR) of Php5.6404/kWh plus the prevailing GRAM and ICERA charges and the difference between the True Cost Generation Rate (TCGR) of PPGI and the SAGR shall be collected from the UC-ME.

On 16 July 2012, the ERC made permanent the provisional authority granted to Guimaras Electric Cooperative, Incorporated (GUIMELCO) and Trans-Asia Oil and Energy Development Corporation (TA-OIL) on the application for approval of the Amended ESA, subject to the conditions that in the event of any increase in fuel consumption due to fuel quality, deterioration of equipment or for any reasons, TA-OIL shall bear the cost while any savings on fuel consumption shall be passed on to GUIMELCO's member-consumers.

Meanwhile, the ERC approved the application filed by Ilocos Norte Electric Cooperative, Inc. (INEC) and Northwind Power Development Corporation (NORTHWIND) for the approval of the Memorandum of Agreement (MOA) on the termination of the ESA and interconnection of the Burgos Substation of INEC. The termination of the ESA shall not be deemed a waiver or forfeiture of INEC and NORTHWIND's respective claims or rights which arose prior to the termination, and shall be without prejudice to the resolution of the motion for reconsideration filed by INEC on November 18, 2010. Moreover, no additional obligations shall be incurred except as provided in the said MOA. As a result of such termination, effective February 25, 2011, all NORTHWIND generation shall be deemed delivered to the grid. However, during the transition period from March 26, 2010 to February 25, 2011, the NPC Effective Rates shall be replaced by the rates of SMEC in the computation of the rates for Burgos Generation. Additionally, INEC is entitled to a Prompt Payment Discount (PPD) of 3% should it pay the bill in full within 10 days from receipt thereof. On the interconnection of INEC's Burgos Substation, the ERC directed INEC to construct the distribution line as soon as possible and the Interconnection Agreement shall terminate on the date INEC notifies NORTHWIND that such distribution line is commissioned into operation.

The ERC decided the following applications relating to the Power Supply Agreements (PSAs) entered into by Manila Electric Company (MERALCO) with various generation companies, to wit:

Other PSAs approved by the ERC in 2012 are the following:

ERC Case No.	Parties	Date of Decision	Details of the Decision
2009-140 RC	Sorsogon I Electric Cooperative, Inc. (SORECO I) and AP Renewables Incorporated (APRI)	December 19, 2011	Time of Use (TOU) rates for the 1st year shall be 1% lower than the National Power Corporation (NPC) rates and 30% PhP-US\$ escalation adjustment shall be adopted. TOU rates for the 2nd year shall be adjusted using the actual Philippine Consumer Price Index (CPI).
2010-140 RC	Ifugao Electric Cooperative, Inc. (IFELCO) and Provincial Government of Ifugao (PGI)	July 30, 2012	The ERC approved a Total Generation Rate of PhP3.62/kWh effective the next billing period from receipt of the Decision, with the following components: Capital Recovery Fee (CRF) at PhP1.25/kWh; O&M Fee at PhP2.36/kWh; and Share to Host Communities (ER1-94) at PhP0.01/kWh. CRF proceeds shall be used for the major refurbishment and replacement of the Ambangal Mini-Hydro Power Plant (AMPP) while the unutilized portion of the CRF shall be allocated to the community.
2011-138 RC	South Cotabato II Electric Cooperative, Inc. (SOCOTECO II), and Sarangani Energy Corporation (SEC)	July 30, 2012	Upon commercial operation, Foreign Component of the CRF (in USD/kW/month) shall be 20.32 in Year 1, 23.33 in Year 2, and 28.69 in Years 3 & 4 and onwards. The ERC, on 06 March 2012, approved the Memorandum of Agreement (MOA) for the Sale of Generated Power during Commissioning between Smith Bell Mini-Hydro Corporation (SBMHC) and Nueva Vizcaya Electric Cooperative, Inc. (NUVELCO). As such, SBMHC shall charge NUVELCO at the rate of PhP1.52/kWh from October 26, 2010 to December 26, 2010. From December 27, 2010 until the time it will qualify for the feed-in tariff (FIT), the interim rate to be applied by SBMHC for the sale of its generated power shall be PhP4.24/kWh, of which PhP2.72/kWh is for the Capital Recovery Rate and PhP1.52/kWh is for the Operational and Maintenance Rate. The variable component of the O&M shall be escalated or de-escalated annually by the Philippine Consumer Price Index (CPI). On the other hand, the PhP2 million annual payment of SBMHC for the utilization of the distribution lines of NUVELCO cannot be passed upon in the instant application, but should be subject of a separate application to be filed by SBMHC and NUVELCO.

On 14 November 2011, the ERC made permanent the provisional authority issued on May 9, 2011, approving the Power Sector Assets and Liabilities Management Corporation's (PSALM) Contracts to Supply Electric Energy (CSEE) and Letters of

Agreement (LOA) Entered Into with Distribution Utilities (DUs) Located in the Visayas Grid under ERC Case No. 2011-039 RC and 2011-021 RC. The ERC approved the CSEEs and LOAs with ANTECO, CEBECO I, CEBECO II, ILECO II, ILECO III, LEYECO III, LEYECO IV, LEYECO V, NOCECO, NORECO I, SAMELCO II and VRESCO, in varying amounts of average contracted energy as specified in the Decision for the contract duration from December 26, 2010 up to December 25, 2011. Likewise, the ERC approved the CSEEs and LOAs with BILECO, NORSAMELCO, SAMELCO I, VECO, CENECO, LEYECO I/DORELCO and LEYECO II, in varying amounts of average contracted energy as specified in the Decision for the contract duration from December 26, 2010 up to December 25, 2011, with only LEYECO II having a contract duration from November 26, 2010 up to December 25, 2011. The ERC also made permanent, on 24 January 2012, the provisional authority issued on May 9, 2011 to Power Sector Assets and Liabilities Management Corporation (PSALM), approving the CSEEs and LOAs with LASURECO and ZAMCELCO, in varying amounts of average contracted energy as specified in the Decision.

TAX RECOVERY

The ERC granted, on 27 February 2012, Manila Electric Company's (MERALCO) application for recovery of Local Franchise Tax (LFT) for the 5 provinces and 14 cities under its franchise area, specifically the areas of Bulacan Province, Batangas Province, Cavite Province, Laguna Province, Rizal Province, San Jose Del Monte City, Batangas City, San Pablo City, Tagaytay City, Lucena City, Mandaluyong City, Marikina City, Quezon City, Caloocan City, Pasay City, Las Piñas City, City of Manila, Pasig City, and Calamba City. MERALCO was authorized to recover the LFT and impose the Tax Recovery Adjustment Charges (TRAC) as detailed in the Decision, and to reflect the Tax Recovery Adjustment Charges (TRAC) in customers' bills as a separate item.

UNIVERSAL CHARGE (UC)

The ERC, on 16 July 2012, approved the application of National Power Corporation (NPC) for the availment of the Environmental Charge/Share from the Universal Charge for the Rehabilitation and Management of Watershed Areas. The Power Sector Assets and Liabilities Management Corp. (PSALM) was authorized to release the amount of PhP58,829,083.10 to fund NPC's Watershed Management Program for 2007, and PhP100,554,854.56 for 2008. Disbursement and utilization, as directed by the ERC, shall be in accordance with the *Rules and Procedures Governing the Utilization and Disbursement of the UC-EC*.

Meanwhile, on 30 July 2012, the ERC approved the petition of the National Power Corporation - Small Power Utilities Group (NPC-SPUG) for the recovery from the UC of the shortfalls in the Missionary Electrification (ME) Subsidy for CY 2003 to CY 2009 under the True-Up Mechanism Pursuant to ERC Resolution No. 11, Series of 2005

and the corresponding adjustment of the UCME. As a result, PSALM was authorized to release the amount of PhP6,326,090,190.46 to NPC-SPUG and all distribution utilities and the National Grid Corporation of the Philippines (NGCP) were directed to collect from the consumers the UC-ME charge in the amount of PhP0.0709/kWh, on top of the existing UC-ME rate of PhP0.0454/kWh for a period of 17 months or until such time that the full amount shall have been collected, whichever comes earlier. This will start on the August 2012 billing period and shall be remitted to PSALM on or before the 15th day of the succeeding month.

VIOLATION OF ERC RULES, REGULATIONS AND POLICIES

The ERC, in line with its mandate under Section 43(i) of Republic Act No. 9136, decided thirty-three (33) violation cases filed against entities for violating the EPIRA and its IRR, and the rules and regulations promulgated by ERC, specifically, for:

1. Failure to renew their Certificates of Compliance (COCs) within the prescribed period and operating a generation facility without a valid COC;
2. Inclusion of Power Supply Contract Cost (PSC) in the Retail Rates Without Prior Approval from the Commission
3. Failure to Comply with ERC Resolution No. 16, Series of 2009, As Amended by ERC Resolution No. 21, Series of 2010;
4. Implementation of Unapproved Additional Rate;
5. Implementing Capital Projects Without Prior Approval from the Commission;
6. Failure to Submit Annual Report;
7. Violation of Chapter 3, Sections 3.2.3.3 and 3.2.3.4 of the Philippine Distribution Code (PDC) and Section 1.7.6 of the Distribution Services and Open Access Rules (DSOAR);
8. Failure to Implement the Inter-Class Cross-Subsidy Removal;
9. Failure to Furnish the Commission a Copy of the Written Notices dated November 4, 2009 and September 1, 2010 Denying Team (Philippines) Energy Corporation's (TPEC) Application as a WESM Member.

Twenty-eight (28) out of the thirty-three (33) or 85% pertain to violations on COC renewal, PSC cost inclusions in the retail rates, non-compliance to Resolution No. 16, series of 2009, and non-submission of Annual Report.

The following are the details of the violation cases decided per nature of violation:

Failure to renew their COCs within the prescribed period and operating a generation facility without a valid COC

CONSUMER AFFAIRS

The ERC received a total of 510 letter-complaints from electricity consumers directed against various DUs. As part of its mandate to promote and protect the electricity consumers' interests, the ERC acted on these complaints and mediated between these

complainants and the DUs they were complaining against. Through this mediation process, a huge number of these letter-complaints, including those filed in the previous years were resolved and/or amicably settled to the satisfaction of the complainants. Throughout this process, the ERC issued 3,855 Letters, 2,121 Orders, and conducted 1,802 conferences in 2012.

For some of those unresolved complaints, the complainants invoked the ERC's jurisdiction by filing their formal complaints. Several of these complaints were also eventually amicably settled, while some of those that were not were resolved by the ERC based on the evidences submitted by the parties.

Below is the Summary of the Filed and Resolved Consumers Complaints for Mediation and Arbitration.

CHALLENGES AHEAD

ERC'S STRATEGIC PLANS FOR 2013

The ERC formulated its strategic plans for 2013. These strategic plans are translated into specific and measureable targets. The systems and procedures needed in 2013 are likewise drawn up. Among the major targets lined up for 2013 are the Finalization of the

FIT-All Payment and Collection Guidelines/Renewable Energy Payment Agreement (REPA) Template, Regulatory Support for the Interim Market for Energy in Mindanao, and the Issuance of Rules to address other transition issues in the implementation of Retail Competition and Open Access.

PRIORITY AREAS	2013
ENHANCED REGULATION	Review and enhance Rules on Consumer Service Policy
	Improve Procedure in Handling Consumer Complaints
	Review and revise the RSEC-WR & RDWR-RT
	Finalize FIT-All Payment & Collection Guidelines/ REPA Template
	Finalize Net Metering Interconnection Guidelines
	Draft and finalize Rules for the Review & Evaluation of Power Supply Agreement
ENHANCED MARKET COMPETITION	Provide Regulatory Support for Interim Market for Energy in Mindanao
	Draft and finalize Rules to address other transition issues in the implementation of Retail Competition & Open Access
	Accomplish deliverables/pre-conditions for Retail Competition & Open Access
EFFECTIVE MONITORING	Draw up roadmap for more Effective Market Monitoring
	Enhance Monitoring Tools & Manuals
PROMOTION OF CONSUMER INTEREST	Intensify Contestable Consumer Awareness Campaign
	Inform and Educate the Public through the Use of Tri-Media
BUILD TECHNICALLY COMPETENT PEOPLE	Draw up and propose a New Organizational Structure
	Develop Compensation & Benefits Scheme
	Refine and implement the PBB Scheme
	Conduct a comprehensive Training Needs Assessment and develop a Training Plan
SYSTEMS & PROCEDURES	Improve Process Flow on Disposition of Cases
	Conduct an Agency-wide Inventory of all Records
	Develop the Records Disposition System and Executive Information System (Electricity Rates)

The strategic plans listed above are supported by second level plans. These plans detail all the tasks to be carried out by each Service/Division/Unit. The implementation

of these plans shall be strictly monitored using a Monitoring and Evaluation System approved by the ERC.

COMPETITIVE RETAIL ELECTRICITY MARKET (CREM)

In the preparation for the implementation of the Open Access and Retail Competition Regime (OARC) in the islands of Luzon and the Visayas, the ERC needs to ensure the smooth transition of the entire electric power industry to a more competitive environment as well as to promote the interests of all the stakeholders in the said industry. A six (6) month transition period starting December 26, 2012 until June 25, 2013 will be implemented to give retail electricity market participants a sufficient amount of time to evaluate, plan and contract for supply of electricity. During this period, distribution utilities (DUs) shall continue to provide supply of electricity to contestable customers operating in their franchise areas.

The ERC anticipates that several implementation issues may be encountered once retail competition is implemented. The ERC is preparing to address all these issues by coming out with regulations to ensure the smooth transition to this new environment and the protection of the interests of both the Captive and Contestable Customers.

INTERIM MINDANAO ELECTRICITY MARKET (IMEM)

The Interim Mindanao Electricity Market was mandated under the DOE Circular No. 2013-01-0001 to address the power situation in the Mindanao region. The IMEM is a venue for the transparent and efficient utilization of all available capacities in Mindanao grid to meet the supply deficiency in the region. It aims to encourage all embedded generators in the grid to participate in the market and also to draw out voluntary load customers who are willing to curtail their load to lower the demand in the system.

The Energy Regulatory Commission (ERC) is cognizant of its critical role in ensuring the establishment of the IMEM and the realization of its objectives. It is committed to effectively discharge this role by expediting its evaluation and action on all the necessary regulatory filings to be made as precondition to the establishment and operation of the IMEM.

RENEWABLE ENERGY (RE)

Net Metering for RE is an incentive mechanism that encourages end-users to participate in renewable electricity generation. All end-users can put up and invest in RE systems and sell excess electricity to the grid. The ERC, in consultation with the National Renewable Regulatory Board (NREB), is tasked to put up rules and pricing methodology for the program.

The ERC's work as regards the FIT System is not yet complete. Although the ERC approved in 2012 the initial Feed-In Tariff (FIT) rates for wind, biomass, solar and hydro renewable energy resources, it has yet to set the FIT rate for ocean generated electricity. This will depend on the availability of sufficient data to be used as basis for its initial FIT rate. To finally implement the FIT System, the ERC will have to already finalize the remaining rules and guidelines that will complement the FIT Rules it earlier issued and work on setting the FIT Allowance. The ERC is optimistic that this will be accomplished soon.

2012 ERC REVENUE RESOURCES

The ERC's revenue collection for 2012 amounted to PhP1.042 billion. This was 112% higher than the projected 2012 income of PhP492.855 million. The details are as follows:

NATURE OF INCOME	COLLECTION (PhP)
1. Permits and Licenses	284,553,413.46
2. Meter Testing Fees and Meter Type Approval	42,211,708.09
3. Supervision Fees	710,871,935.47
4. Fines and Penalties	4,069,347.89
5. Other Income	897,421.95
Total	1,042,603,826.86

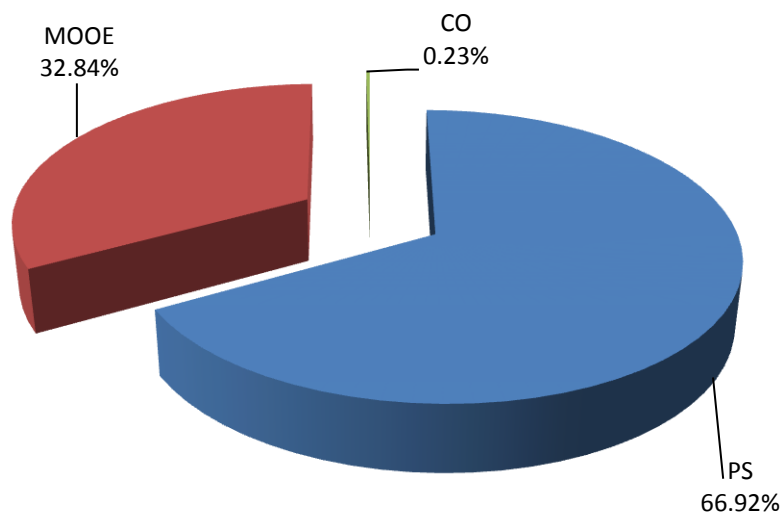

The bulk of the 2012 collection came from the supervision fees, in the amount of PhP710,871,935.47 or 68.18% of the total income, while the permits and licenses accounted for 27.29% of the total 2012 income. The remaining income generated by the ERC came from meter testing fees and meter type approval (4.05%), fines and penalties (0.39%) and other general income (0.09%). See pie chart below for comparison:

BREAKDOWN OF 2012 ERC INCOME

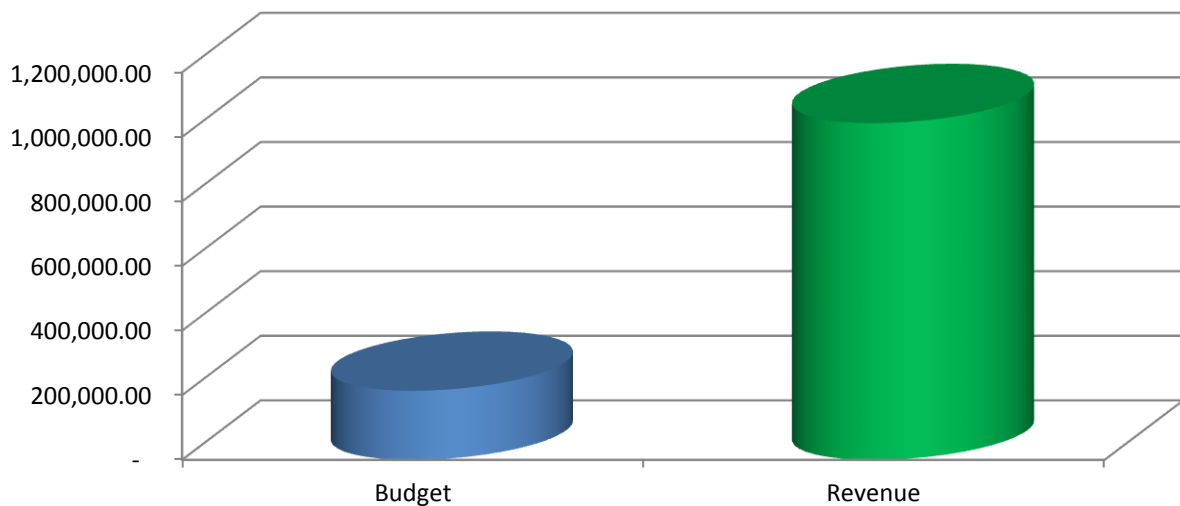

2012 BUDGET APPROPRIATIONS

The 2012 ERC approved budget was PhP213.717 million. PhP143.026 million or 66.92% of which was for Personnel Services (PS), PhP70.191 million or 32.84% was for Maintenance & Other Operating Expenses (MOOE) and the remaining PhP.5 million or .23% was for Capital Outlay (CO).

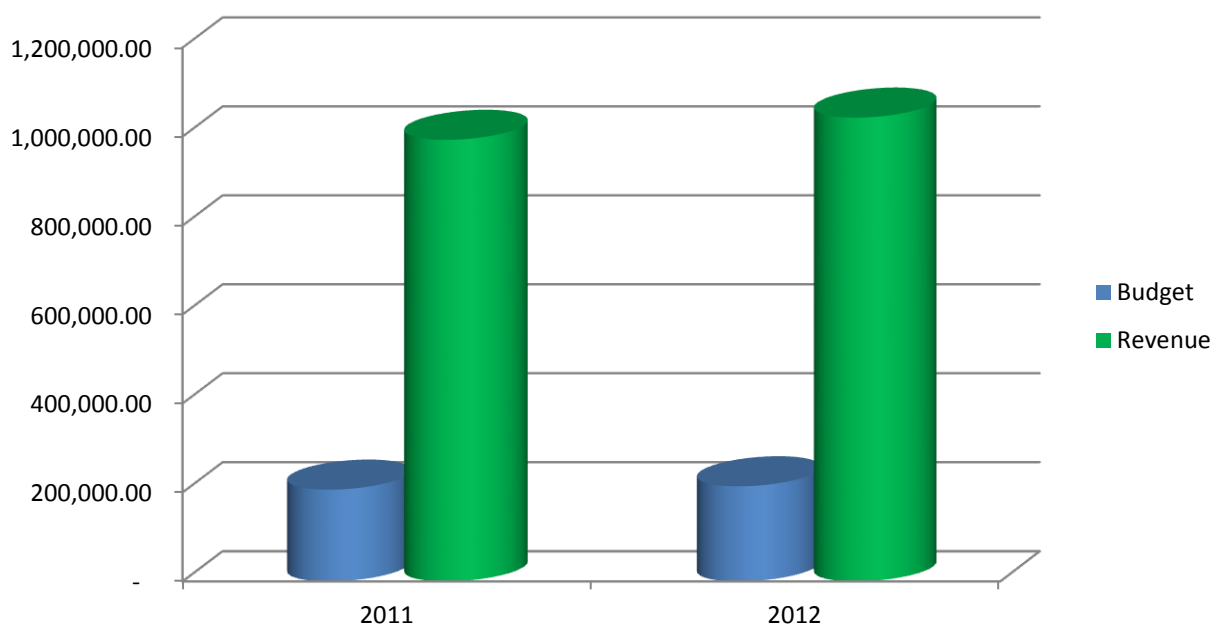

2012 REVENUE VS. BUDGET

The 2012 approved budget was only 20% of the total revenue collection of ERC. The graph below shows the difference between ERC's 2012 budget and revenue:

2011 AND 2012 COMPARISON OF BUDGETS AND REVENUES

ERC's 2012 budget of Php213.717 million is only 3.7% higher than the 2011 budget of Php206.170 million and the ERC's 2011 and 2012 budget are only 20% of ERC's actual revenues for both years. This clearly indicates that the ERC generates revenue for the government.
